- Staff:** Steve McPhee, Hy Lam, Tung Nguyen, Thoa Nguyen, Ching Wong and Elisa Tong (6)
- 

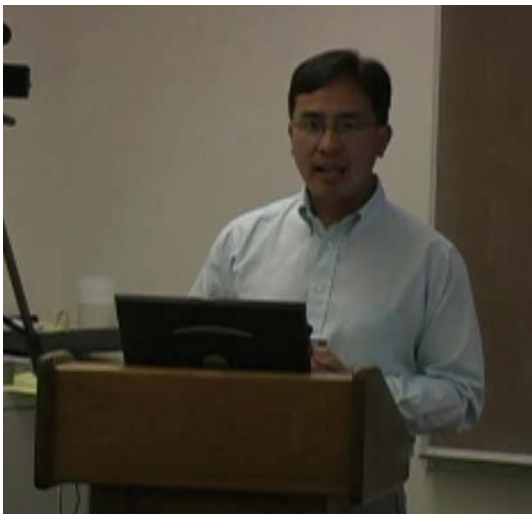

6:00 PM Dinner and Networking.

6:30 PM Dr. McPhee opened the meeting with everyone giving a self-round introduction by introducing his/her name, organization represent, and status is an intern, partner, or guest. We are excited

about the prospect of the future. We have moved from National AANCART to Community Network Programs with renewal of funding thanks to Tung for doing an extraordinary amount of work to get us funded. We are now re-funded for 5 years. Dr. McPhee passed out the National AANCART Annual Glossy booklet. In the last 5 years, we did get for funded pilot projects done by Cindy Lai, Angela Sun, Subrina Wong, and Grace Yu. Other National AANCART announcements are: there is another annual NCI disparities summit from July 18 to July 20, 2006. Tung and Thoa will be attending. There are some activities on the Chris Jenkins Cancer Control Awards. It is still not clear if there is another Cancer Control Academy because there is no budget for it under the new Community Network Program. There are two options of presenting the Chris Jenkins Award lecture either at the APHA or at the ICC every other year. If you have any idea who you would like to nominate, please let Thoa know.

7:00 PM Feature presentation "*Colon Cancer Screening in Vietnamese Americans*" presented by Bang H. Nguyen, Dr.PH. After the presentation, there were questions and answers.

8:00 PM Meeting adjourned.
