

Colon Cancer Awareness in the S.F. Chinese Community

Cindy Liang

NICOS Chinese Health Coalition

Background

- ❖ Through the Chinese LHW project, we saw a lack of awareness and resources in the community.
- ❖ AANCART sponsored our colon cancer awareness and prevention outreach.
- ❖ We leveraged the NICOS annual health fair to conduct an outreach.

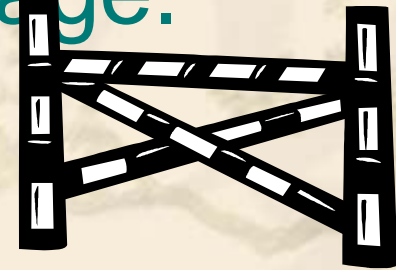

Goal

- ❖ To educate community members about colon cancer and prevention.
- ❖ To encourage more people to get screened.
- ❖ To provide free FOBTs to a few selected individuals.

Obstacles to Screening

- ❖ Lack of awareness.
- ❖ Long work hours.
- ❖ Unfamiliarity with the health care system.
- ❖ Insufficient insurance coverage.

Outreach Activities

❖ Quiz

- ❧ Five-question quiz. (125 out of the 670 attendees participated).
- ❧ One on one education with a LHW.
- ❧ Gift bag.

❖ Free FOBT drawing.

Quiz

1. Colon cancer is the _____ most common cancer among Chinese American.

- a. 2nd

FOBT Drawing

- ❖ The drawing targeted participants with the most needs by using these criteria:
 - ❧ Aged 40 or above with a family history
 - OR
 - ❧ Aged 50 or above
 - ❧ Medically uninsured or partially insured
 - ❧ Interested in obtaining a FOBT
- ❖ 3 individuals received free FOBT from us.

Conclusion

- ❖ Continuous effort of colon cancer education and outreach are needed.
- ❖ Workshops are effective in providing greater depth on the subject.
